

creative portfolio

The logo for 'creative portfolio' features the word 'creative' in a bold, dark grey sans-serif font, and 'portfolio' in a larger, bold, dark grey sans-serif font. A yellow, irregular oval shape is positioned behind the word 'portfolio'. A long, dark grey, curved line starts from the bottom left of the 'p' in 'portfolio' and extends downwards and to the left, ending near the bottom left corner of the image.

hello! I am Rajan Sharma

Architect, Artist, Solopreneur & Sportsman

I am a creative thinker who thrives at the intersection of architecture, technology, art, and entrepreneurship. My work is driven by the belief that great design is more than aesthetics; it's about solving problems, creating experiences, and inspiring people. From designing spaces and brands to building digital ventures and pursuing excellence in sports, I embrace every challenge as an opportunity to innovate and leave a lasting impact. My approach blends creativity with strategic problem-solving to improve usability, drive adoption, and create measurable business impact.

Education Background

NIT Raipur

Bachelor of Architecture

2016-21

My Bachelor of Architecture journey at NIT Raipur, laid the foundation for my creative and professional growth. It began with a passion for architectural visualization, which gradually evolved into a deeper understanding of visual communication, design thinking, and problem-solving. Throughout the program, I developed a strong sense of design, storytelling, and aesthetics while exploring architecture beyond buildings. During this journey, I also discovered my passion for photography, which sharpened my eye for composition, light, and perspective. Together, architecture and photography built the creative foundation that continues to shape my career today.

IIM Udaipur

Summer Program in Management

2025

My Summer Program in Management at the Indian Institute of Management Udaipur marked a defining chapter in my journey—where creativity met business. I immersed myself in the fundamentals of business operations, finance, and risk management, gaining a deeper appreciation for how great ideas are transformed into sustainable enterprises. The program complemented my design background with strategic thinking, strengthening my ability to connect creativity with business impact.

Equally memorable were the people I met. Learning alongside talented peers from diverse backgrounds introduced me to new perspectives, challenged my assumptions, and expanded my understanding of leadership, collaboration, and life itself. The conversations, friendships, and shared experiences at IIM Udaipur continue to shape my mindset, making me not only a better designer, but a more thoughtful creator and future entrepreneur.

Extra Curricular

Archery represents the pursuit of precision, discipline, and unwavering focus in my journey. As an Infinito Comics-sponsored recurve archer, I am committed to the long-term goal of representing India on the international stage. Every training session is a lesson in resilience, patience, and the relentless pursuit of excellence.

Beyond the sport, archery has shaped my character—instilling discipline, mental strength, and the ability to perform under pressure. It continues to inspire me to aim higher, stay consistent, and approach every challenge with clarity, confidence, and purpose.

**I am also learning playing Harmonica!*
